## Project Manager

### Challenges

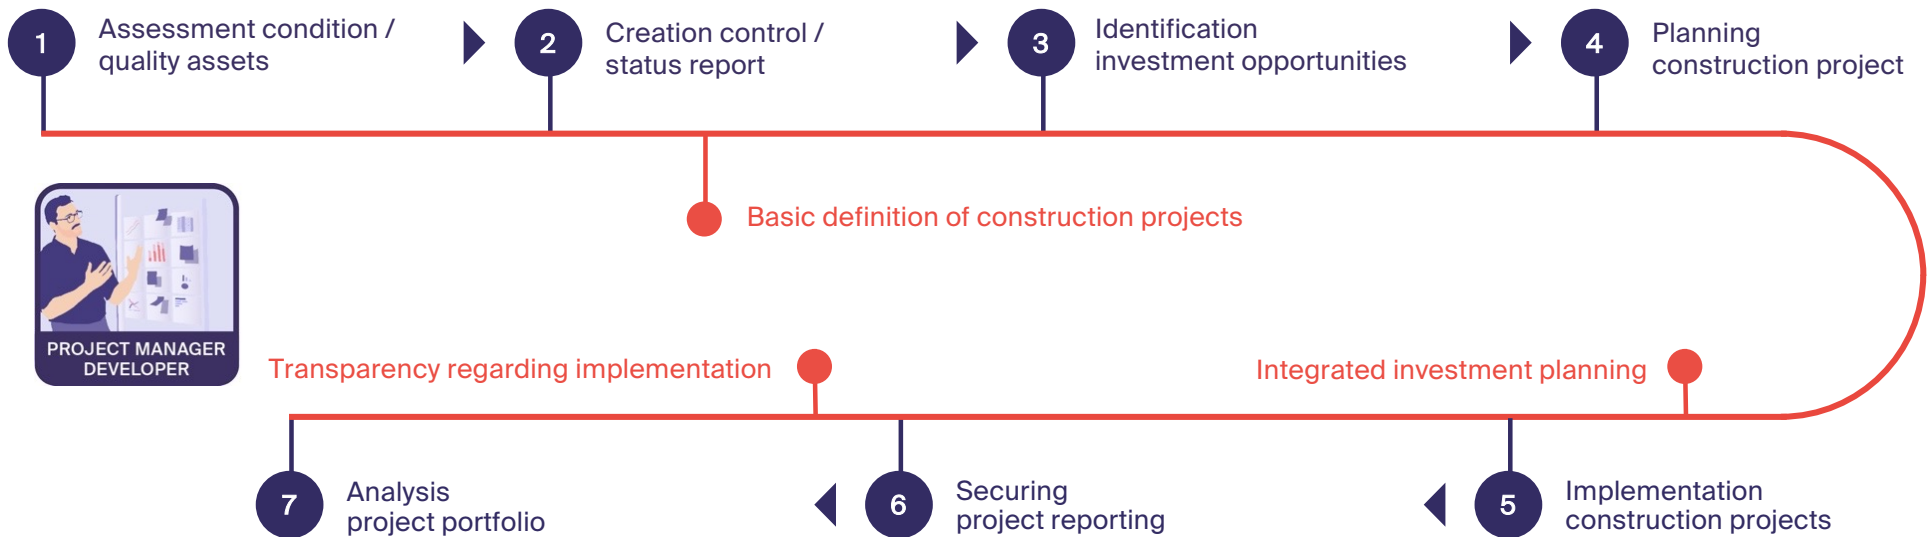

- Identification of the most important investments: Transparent, traceable planning of the construction projects with the greatest contribution to achieving the portfolio targets.
- Project execution according to plan: control of the portfolio of construction projects and appropriate handling of changes in content or time delays
- Communication and stakeholder management: Effective and understanding communication and rapport for various stakeholders.

### Solutions

- Fully integrated construction project planning and control of execution
- Functionalities optimized in terms of efficiency for the execution phase (approvals payments, reporting, etc.)
- Comprehensive, historicized reporting with regard to time, quality and costs
